

STUDY

PARTICIPANTS NEEDED

for undergraduate research project

Project title: The perspectives and experiences of UK speech and language therapists treating patients with functional symptoms

THIS STUDY NEEDS YOU IF...

- you are a HCPC-registered, currently practicing **UK speech and language therapist**
- you have come across patient(s) with **functional symptoms** requiring SLT intervention during your clinical practice
- you would like to help contribute to research aiming to understand current issues in speech and language therapy provision for this patient population

IF THIS IS YOU, COULD YOU SPARE 40 MINUTES FOR AN INTERVIEW?

- interviews will be fully confidential
- will take place on Microsoft Teams at a time convenient to you
- involve one-to-one discussion with the researcher

WHY IS THIS RESEARCH IMPORTANT?

The study wants to find out more about speech and language therapists' perspectives on current issues in speech and language therapy provision for patients with functional symptoms.

Interested? Have further questions?

If you'd like to take part, and/or have any questions about doing so, please get in touch via email, at:
